Hi everyone!

The only change to my earlier plan was adding UPDATE from August 15, 2015: (let me know if you'd like me to remove those words or change them to anything else)

On this page:

<http://www2.epa.gov/goldkingmine/gold-king-mine-data-august-13-2015>

I kept the first XLSX file. Then, starting just below that:

1. I DELETED this language:

EPA is working to update data formatting for the sampling data for the Animas and San Juan Rivers from the Northern Border of New Mexico to Navajo Nation collected from Aug. 9 to Aug. 10, 2015. The data table will be re-posted shortly.

2. And REPLACED it with this language:

UPDATE from August 15, 2015: Validated sampling data for the Animas and San Juan Rivers from the Northern Border of New Mexico to Navajo Nation collected from Aug. 9 to Aug. 10, 2015.

Open or download the data file: [09AugTo10AugFinalSurfaceWater.xlsx](#) (1 pg, 20 K)

Let me know if you'd like me to change anything, and I'll do so right away.

Thanks!
